Haskins vs. Foster.

The Burlington Free Press of Saturday in editorially referring to an article in the Bennington Banner, gave Representative Foster credit for getting for his district the appropriation of \$50,000 carried in the agricultural appropriation bill for the government.

McNair horse breeding station at Weybridge in Addison county. As a matter of fact Representative Haskins of the second Vermont district secured this appropriation, as one of the leading members of the House agricultural committee, when the appropriation bill was made up. It was through Col. Haskins' influence and his statement on the floor of the House, relative to the Morgan breeding farm presented to the government by Col. Joseph Battell, that the item was retained in the bill.

Col. Haskins explaining effectively the imperative need of the appropriation for continuing a work of great importance to horse breeding interests. Mr. Foster had nothing to do about the appropriation except that he was president as chairman of the committee of the whole House while the appropriation bill was under consideration, and when a point of order was made against the appropriation referred to he overruled the point of order.

HAMMOND REALLY IN EARNEST.

His Attorney Manager Believes That His Chances Are Good.

New York, June 5.—John Hays Hammond, through his attorney, Charles W. Truslow, announces that he has severed his connection with the Guggenheim as consulting engineer, and that he is free to make an aggressive campaign for the vice-presidency on the Republican ticket.

"I want to say that Mr. Hammond never received such a fabulous salary as \$500,000 a year from the Guggenheim Exploration company or any other company in which the Guggenheims were interested," said Mr. Truslow. "I drew the contract papers which stipulated the salary Mr. Hammond received, and while I am not free to name the precise amount, I can say that it was not even 50 per cent. of the figures so widely published. Mr. Hammond is thoroughly in earnest in his efforts to be named as the Republican candidate for the vice-presidency. While I am managing his campaign with that end in view, I must say that his chances look very good. He has already obtained considerable support in the West and his chances are as good as anyone now in the field." Mr. Truslow said that Mr. Hammond's contract with the Guggenheims expired last fall and that the eminent mining engineer has no retainer of any kind from the Guggenheims or the smelting trust.

SENATOR MCNICHOE HELD.

He Is Charged With Libel in City of Philadelphia.

Philadelphia, June 5.—The unusual spectacle of the political leader of a great city haled before a police magistrate on a charge of criminal libel drew a great crowd to the neighborhood of the little office of Judge Gorman yesterday, where State Senator James P. McNichol, the acknowledged head of the Republican organization, had been summoned on a warrant sworn out by Max Kaufmann, private secretary to Mayor Reuburn, to whom McNichol stated on Tuesday he gave \$10,000 for the use of the Law and Order society in discrediting the reform efforts of Mayor Weaver in 1905. At the conclusion of the testimony of Kaufmann, denying the charge, and of Secretary Gibney of the Law and Order society in Kansas City, McNichol was held for court, no bail being suggested.

A NOAH ON THE MISSISSIPPI.

A Missouri Man Is Sailing in His Own Ark.

St. Louis, June 5.—J. W. Appleton of Missouri Point, Mo., is floating down the Mississippi river with his family, twelve pigs, three cows, two horses and some poultry, on a large raft which he launched just before the river broke over its banks and covered his farm with several feet of water. He started Tuesday afternoon, intending to steer his raft for high ground, but thus far he has not been able to effect a landing. The raft, which is an enormous affair, was built by Appleton two weeks ago in preparation for the flood. It is surrounded by a railing to keep the cattle from falling into the river. Food for man, beast and fowl to last several days was taken along.

THREAT CAME TRUE.

Young Brodie Stricken as He Utters Threat.

New York, June 5.—"I'll get even with them yet or I hope to die." A moment after "Steve" Brodie Jr., son of the famous Brooklyn bridge jumper, who died about six years ago, had uttered these words while standing in front of the saloon at No. 114 Bowers yesterday he pitched forward in a heap on the sidewalk. He had been stricken with heart disease.

Brodie's threat was against the police because they had closed up the saloon where he was employed as a bartender. Brodie is now at St. Gregory's hospital, where it is said that he has only the barest chance for recovery.

TEACHERS OVER 50 BARRED.

Decide Mental Vigor Begins to Decline at That Age.

Chicago, June 5.—No person over fifty years of age will be admitted hereafter to teaching positions in the Chicago public schools. The board of education made this ruling last night by a vote of 13 to 4.

Incidentally the trustees gave their official confirmation to the statements of the superintendent's office that this age limit "appears to be the point at which the mental and physical vigor of those who come to us has begun to decline."

A Grand Family Medicine.

"It gives me pleasure to speak a good word for Electric Bitters," writes Mr. Frank Conlan of No. 438 Houston street, New York. Electric Bitters regulate the digestive functions, purify the blood, and impart renewed vigor and vitality to the weak and debilitated of both sexes. GOTHAM HASTENS

TO FEED CHILDREN.

Contributions Pour in for Relief of Improperly Nourished Little Ones.

New York, June 5.—Contributions poured in from every quarter of the city yesterday to aid in the furtherance of the movement to feed improperly nourished children. Most of the money was in small amounts.

Eventually it hoped to establish regular places where the children may procure food daily, but temporary plans for relief will be put into effect at once. This will be made possible through the co-operation of many restaurant proprietors in the lower east side, who will accept tickets issued by the relief committee in exchange for luncheons for needy children.

In the meantime, the various committees organized in the lower section of the city are searching for vacant stores with proper facilities and surroundings which they propose to convert into temporary kitchens. These places will provide for the needs of the children in their immediate neighborhood.

EIGHT LUMBERMEN

REPORTED DROWNED.

While Going Over The Rapids of Black River Boat Said to Have Broken Up.

Frederick N. B. June 5.—Harry Burns, a lumber operator, who arrived here yesterday from the headquarters of the St. John river, says it was reported in Edmundston that eight men employed by W. J. Noble as lumber drivers, had been drowned. It was reported that a boat which the men were towing to St. Basil was broken in two in the rapids at the mouth of the Black river and that all were lost.

Inquiry at Edmundston by telephone yesterday failed to bring confirmation of the report.

GRANT WAS REFUSED

AS COUNTY ENGINEER.

His Application to St. Louis Officials in 1859 Found Among Documents.

St. Louis, June 5.—A document was found in the office of City Register Ragan which showed that Gen. U. S. Grant in 1859 applied to the city of St. Louis for a position as county engineer and was refused the place.

That Gen. Grant did not get the position is shown by the failure of his name to appear in the county roster of that date. At that time the position of county engineer was poorly paid, and
